Submitted Code: 1 hour, 42 minutes ago

Language: python3

Edit Code

```
1 class Solution:
2     def minSubsequence(self, nums: List[int]) -> List[int]:
3         subArray = []
4         otherArray = nums
5         subSum = 0
6         otherSum = 0
7
8         for i in range(len(nums)):
9             if sum(subArray) > sum(otherArray):
10                return subArray
11            else:
12                subArray.append(max(otherArray))
13                otherArray.remove(max(otherArray))
14
15        return sorted(subArray)
```
